TECHNICAL SKILLS

Agentic AI & LLMs: LangGraph, LangChain, Multi-Agent Orchestration, Tool Calling, Agentic RAG, ChromaDB, OpenAI API, Anthropic Claude
Core AI & Backend: Python, FastAPI, PyTorch, AutoGluon, Transformers, HuggingFace, NumPy, Pandas
Data & Infrastructure: PostgreSQL, Docker, AWS (Lambda, S3, EC2), Vector Databases, Git, Linux

PROFESSIONAL EXPERIENCE

AI Engineer **Jan 2025 – Mar 2025**
Eipi Media *Mumbai, India*

- Implemented autonomous agentic workflows and LLM tool calling for multi-step content and data processing tasks.
- Integrated stateful LLM chains to automate reporting, reducing manual operational overhead by 40%.
- Built dynamic API integrations and data extraction scripts, speeding up content generation cycles by 50%.

KEY PROJECTS

Multi-Agent Financial & Workflow Decision Engine github.com/adiP66/agentic-finance

- Developed a collaborative multi-agent architecture using LangGraph with specialized reasoning, verification, and execution agents.
- Implemented dynamic tool-calling interfaces enabling agents to query financial databases, run risk heuristics, and synthesize summaries.
- Integrated human-in-the-loop validation checkpoints and persistent state management across multi-turn conversational execution.

Autonomous Sports Intelligence Agent with Adaptive RAG predmma.in

- Created an autonomous research agent that orchestrates live web retrieval, ChromaDB vector search, and predictive model inference.
- Built hybrid retrieval (dense semantic vectors + BM25 keyword matching) to deliver contextually grounded analysis with zero hallucination.
- Served via high-performance FastAPI microservices delivering real-time agentic insights with sub-second streaming latency.

Machine Learning Predictive Research & Distributed Engine github.com/adiP66/ufc-research

- Developed predictive ML engine outperforming baseline odds (64%+ accuracy) across 5,000+ historical fight matchups.
- Engineered 100+ statistical signals (momentum ratios, EWMA, z-scores) using Pandas, training distributed ensembles on Azure ML Studio.

EDUCATION

MSc. in Artificial Intelligence **2024 – 2026**
B.K. Birla College of Arts, Science & Commerce (University of Mumbai) *Kalyan, India*

BSc. in Computer Science **2021 – 2024**
Chandibai Himathmal Mansukhani College (University of Mumbai) *Ulhasnagar, India*

ACHIEVEMENTS

- Top 10% Most Active Contributor on LeetCode; solved 150+ algorithms and SQL problems.
- Authored comprehensive empirical research paper addressing model interpretability in predictive ML systems.
