TECHNICAL SKILLS

Machine Learning & MLOps: PyTorch, Scikit-learn, AutoGluon, MLflow, Docker, Azure ML, DVC, Feature Stores, Model Monitoring
Backend & Cloud: Python, FastAPI, PostgreSQL, AWS (S3, Lambda, Redshift), Redis, Linux, Git, CI/CD, Asynchronous Pipelines
Data Processing: Pandas, NumPy, Distributed Feature Engineering, Spatial & Tabular Data Transformation

PROFESSIONAL EXPERIENCE

AI Engineer **Jan 2025 – Mar 2025**
Eipi Media *Mumbai, India*

- Managed end-to-end ML lifecycle scripts from data extraction to production inference serving, improving throughput by 30%.
- Engineered automated monitoring checks for inference latency and output data quality, decreasing failure rates by 40%.
- Integrated modular API pipelines to serve on-demand model predictions with sub-100ms response targets.

KEY PROJECTS

End-to-End MLOps Pipeline & Real-Time Serving Platform github.com/adiP66/mlops-pipeline

- Built production MLOps pipeline featuring automated model training, MLflow experiment tracking, and artifact versioning.
- Containerized deployment with Docker and deployed FastAPI microservice for low-latency batch and online model inference.
- Implemented automated data drift alerts and statistical schema validation checks to safeguard production prediction stability.

Distributed Predictive ML Research Engine github.com/adiP66/ufc-research

- Engineered 100+ rolling temporal and spatial athletic features (EWMA, z-scores, strike trajectories) across 5,000+ matchups.
- Managed distributed training jobs on Azure ML Studio compute clusters, debugging data leakage and multiprocessing bottlenecks.
- Achieved 64%+ predictive accuracy on out-of-sample data, deploying ensemble inference pipelines for live event analytics.

Cloud Data Warehouse & Analytics Architecture github.com/adiP66/awsETLproject

- Constructed AWS data lake and ETL pipeline processing 10k+ daily records with automated error-handling on Lambda.
- Optimized Redshift warehouse schemas and SQL queries, delivering 30% faster analytical queries for executive dashboards.

EDUCATION

MSc. in Artificial Intelligence **2024 – 2026**
B.K. Birla College of Arts, Science & Commerce (University of Mumbai) *Kalyan, India*

BSc. in Computer Science **2021 – 2024**
Chandibai Himathmal Mansukhani College (University of Mumbai) *Ulhasnagar, India*

ACHIEVEMENTS

- Top 10% Most Active Contributor on LeetCode; solved 150+ algorithms and SQL problems.
- Authored comprehensive empirical research paper addressing model interpretability in predictive ML systems.
