TECHNICAL SKILLS

Languages & Frameworks: Python, FastAPI, PyTorch, Scikit-learn, AutoGluon, Pandas, NumPy, AsyncIO
Data Engineering & Cloud: PostgreSQL, MySQL, Redis, AWS (S3, Lambda, Redshift), Azure ML, Docker, Git, CI/CD
Architecture: High-Throughput REST APIs, Distributed Computing, Asynchronous Messaging, Microservices, Statistical Modeling

PROFESSIONAL EXPERIENCE

AI Engineer **Jan 2025 – Mar 2025**
Eipi Media *Mumbai, India*

- Architected scalable backend automation microservices in Python, achieving 30% increase in processing throughput.
- Engineered automated data transformation and validation pipelines with PostgreSQL, cutting error rates by 40%.
- Integrated AI evaluation and predictive scripts through modular REST endpoints, speeding up data turnaround by 50%.

KEY PROJECTS

High-Throughput Financial & Payments ML Analytics Pipeline github.com/adiP66/payments-ml-engine

- Engineered an asynchronous Python/FastAPI data processing pipeline simulating high-volume transaction analytics and fraud scoring.
- Integrated Redis caching and PostgreSQL persistence, handling concurrent event streams with sub-50ms latency.
- Developed automated statistical validation filters and anomaly detection models, flagging irregular data distributions with 99.2% precision.

Predictive Machine Learning Engine & Research github.com/adiP66/ufc-research

- Developed predictive modeling engine delivering 64%+ validation accuracy, outperforming market betting benchmarks.
- Engineered 100+ rolling statistical metrics using Pandas and NumPy, orchestrating distributed training runs on Azure ML Studio.
- Deployed AutoGluon ensemble models behind production FastAPI endpoints for real-time inference and score distribution analysis.

Cloud Data Warehouse Pipeline (AWS Lambda, Redshift, S3) github.com/adiP66/awsETLproject

- Built enterprise cloud ETL pipeline processing 10,000+ daily real estate transactions with 99.9% reliability.
- Authored complex Redshift SQL transformation queries, reducing aggregation query runtimes by 30%.

EDUCATION

MSc. in Artificial Intelligence **2024 – 2026**
B.K. Birla College of Arts, Science & Commerce (University of Mumbai) *Kalyan, India*

BSc. in Computer Science **2021 – 2024**
Chandibai Himathmal Mansukhani College (University of Mumbai) *Ulhasnagar, India*

ACHIEVEMENTS

- Top 10% Most Active Contributor on LeetCode; solved 150+ algorithms and SQL problems.
- Authored comprehensive empirical research paper addressing model interpretability in predictive ML systems.
